BRYAN.

In the light of the resignation of W. J. Bryan, the second note of the United States to Germany on the Lusitania horror is awaited with intense interest by the nation.

Bryan, who believed first in peace, stepped down from his post to avoid being a party to that note.

Bryan wanted to warn Americans to avoid the danger zone. He wanted to warn them to keep off belligerent ships that carried ammunition.

He wanted the points of difference submitted to an international commission and an agreement to remain at peace for one year, to give the commission time to investigate and report.

"Such an offer," said Bryan, "if accepted would at once relieve the tension and silence all the jingoes who are demanding war."

And also: "Why should an American citizen be permitted to involve his country in war by traveling upon a belligerent ship, when he knows that the ship will pass through the danger zone? The question is not whether an American citizen has a right under international law to travel on a belligerent ship; the question is whether he should not, out of right of consideration for his country, if not for his own safety, avoid danger when avoidance is possible."

"The most familiar illustration to be found in the action taken by municipal authorities during a riot. It is the duty of the mayor to suppress the mob and to prevent violence, but he does not hesitate to warn citizens to keep off the streets during the riots. He does not question their right to use the street, but for their own protection and in the interest of order, he warns them not to incur the risks involved in going upon the streets when men are shooting at each other."

That strikes us as being common sense.

Why chance war? Why not do the sensible thing, instead of the spectacular? Must "national honor" be maintained by blood shed? And what is "national honor"? The ability to retaliate with murder for murder?

Bryan hasn't made himself one whit less of a national figure by his resignation.

LAWSON MUST BE FREED.

"Lawson Must be Freed!" declares President Gompers in the leading editorial of American Federationist, June issue. The causes that forced Colorado miners on strike are recorded, as are other recent events in that state.

"This attempt," writes President Gompers, "to hold John R. Lawson responsible in connection with the death of a man of which he had no knowledge, stands in vivid contrast to the studied efforts of John D. Rockefeller Jr., to establish his complete irresponsibility. John R. Lawson had nothing to gain by the death of John Nimmo.

"Holders of property have created a tradition of the paramount importance of property and have exalted and exaggerated the part that property has in production. At the same time they have minimized and detracted from the service that the laborers render. Through their political influence gained by their economic power they have incorporated this misconception into governmental and legal theory. It is against his inequality, this injustice, that the workers are now directing the power of the labor movement.

"Slowly the workers are learning to appreciate their great economic power. As producers they have the world in their grasp. Through their economic power they have been slowly injecting into political and legal thought the conception of the sacredness of human life and the paramount importance of humanity. They are trying to establish a real equality of opportunity in industrial and political affairs; they are trying to secure equal governmental protection to all human beings. This is the real revolution to which all their efforts are working.

"The great injustice and wrong already inflicted on Lawson must be undone and righted.

"John R. Lawson must be freed!"

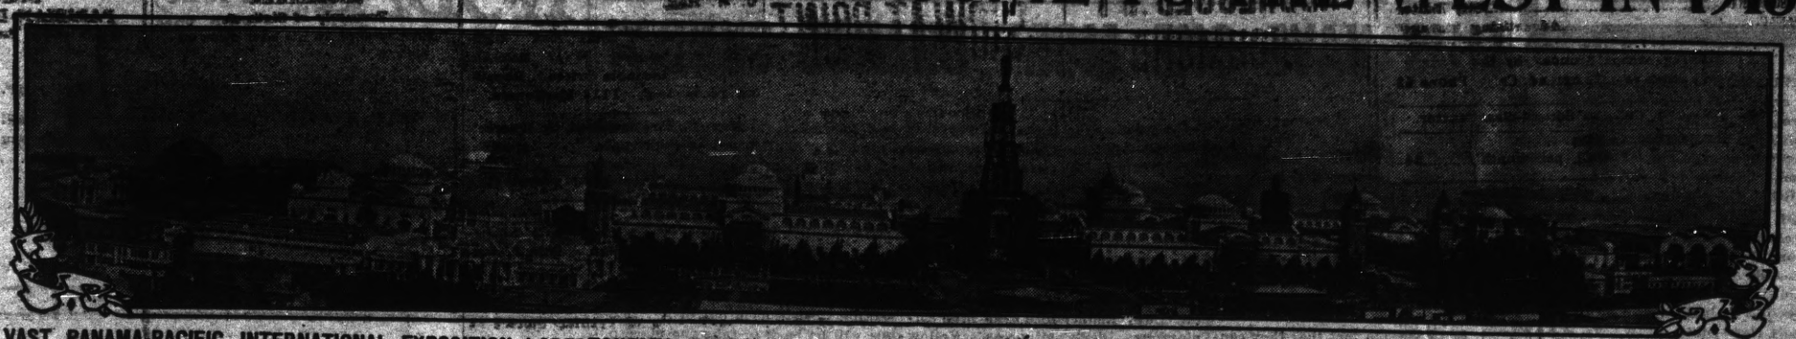
MILLIONS OF VISITORS TO COME TO THE WEST IN 1915



VAST PANAMA-PACIFIC INTERNATIONAL EXPOSITION LODESTONE TO MULTITUDES TO "SEE AMERICA FIRST"—MAGNIFICENT EXHIBIT PALACES ON SHORES OF SAN FRANCISCO BAY.

THE above panorama of the grounds of the Panama-Pacific International Exposition, taken six months before the opening days, is an answer to the question, "Will the war cause a postponement of the Panama-Pacific International Exposition?"

It will not.

The photograph shows only a part of the entire Exposition area of 635 acres, but it shows that the Exposition was 90 per cent completed the day the European conflict started. The war will not even harm the Exposition.

Any loss in exhibits is made up in the requests for additional space from Japan, the orient, South America and nonwarring nations of Europe. There has been not a single withdrawal by any nation because of the war, and assurances have been received from two of the belligerent countries that Exposition participation will proceed. Loss in attendance from Europe will be offset by increased attendance from the United States, South America, Central America, the orient, Australia, New Zealand and the noncombatants in Europe who want to escape war's horror.

In the accompanying photograph, taken from a hilltop 600 yards away, an impression of the size of the exhibit palaces of the "Walled City" is given. Of the eleven exhibit palaces ten are completed, and the Palace of Fine Arts, which is of steel and concrete and absolutely fireproof, will be ready before this story is published.

No better criterion of the progress of the Exposition may be had than the record of the paid admissions. The average is now more than 50,000 persons a month at 25 cents. The total admission receipts from Sept. 9, 1913, to Aug. 30, 1914, was $101,000.

The largest single day when there has been no special event on the grounds was a recent Sunday, when 8,250 persons paid at the gates. The largest attendance for a special event on the grounds was 18,000 paid admissions at the Bull of All Nations on May 2. The Exposition will open on Feb. 20 and close Dec. 4, 1915.

Fortified Tires

Have Pushed Millions of Rocks from the Tire Road

They have saved waste and trouble to hundreds of thousands of motorists. The result is that last year, despite some hundred rivals, men bought about one Goodyear for every car in use.

The rocks that remain are Mishap and Misuse. No tire can ever avoid them. But if you'll judge tires by merit, not by luck, you are bound to come to Goodyears. You'll find they average best.

The Rocks Avoided

We have saved millions of rim-cuts, blowouts and loose treads by features exclusive to Goodyears. We have brought you security through our piano-wire base.

Our All-Weather tread—exclusive to Goodyears—has minimized punctures, tread wear and skidding. It is tough and very thick. The grips are sharp-edged and resistless.

All these protections—the best ever developed—are in Goodyear Fortified Tires alone.

HAPPENINGS IN THE SPORTING WORLD

ELKS HAVE ONE MORE CHANCE SUNDAY

It has been a long month since Richmond fans have had a chance to see the Elks trounce the Petaluma strutters. We repeat, it has been many a long month since the Richmond fans have had a chance to see the Elks trounce the Petaluma strutters, for it has been that long since the egg town boys have played in Richmond.

It is a conceded fact that they cannot be beaten on their home grounds, but they have been beaten once on the Luce Park grounds. With that fond memory to lead them on it is expected that the Richmond populace will all wend their way to First and Macdonald Sunday to see a repetition of that momentous victory.

Music will be dispensed by the Richmond band. Petaluma will be there, down to the last chicken, rooster and chick.

All kinds will be there; Leghorns, Bantams, Cochin Chinas, Coots, Crystal, Buff, Red, White and Blue Orpingtons, Black Minoreas, Yellow Maltese, Green Angoras, Barded Rocks, Plymouth Rocks and Bricks, and some regular chicks, also Pop Healey with some of his furniture, and baseball team from S. F. We're only hoping that they drop their sack of horseshoes over board when they come across on the Ellen.

Richmond's lineup will be about the same. It is thought and hoped that Cliff Cleek will be back in the game, as it will obviate the necessity of breaking up the infield by jerking Christianson out of it. Daniels will be back to take the place of Devine, who played center against Vallejo. Gordon will start Sunday's game, though Burns will be given a few innings of hurling.

MISS WHITESIDES HOSTESS TO "Y" SOCIETY

Miss Nettie Whitesides, 806 Chanslor avenue, was hostess to the "Y" Society Tuesday night. Those present: Misses Stella Shoemaker, Olive Conn, Mabel Irwin, Lela Follett, Myrtle Welch, Hazel Fisher, Eva Hailes, Thelma Milnes, Nettie Whitesides and Culla Bryant, Dorian Jackson, Carl Stolker, Vernon Walsh, Emerson Garrard and Edar Whitesides.

MILNE WILL NOT FIGHT LOCALLY

Declaring that he had been "jobbed" and that ringing in Lucher of Oakland at the last minute was a deliberate plot to get him licked, Plug Milne has decided never to fight again in Richmond.

"The fight was notfair," said Plug last night. "Though I took a lot of punishment and tried my best to stay the limit, they booed me. It wasn't fair. I am through with the local game."

The management of the club says that Milne has no kick coming, that he met a better man.

SPORTING GOULASH

Keep your eye on Harry Kelsey of Oakland. He is destined to be a big bug in the pugilistic world. With the kick the kid has in both fists, and the ring experience he is rapidly acquiring, he is sure to climb high in the welter weight circles of the Queensberry ring.

• • •

Plug had somthing slipped over on him, he avers. Well, there is a little difference in the size of Richmond and Oakland, and being champion of Richmond is not quite enough to beat the champion of Oakland. Lucher is tied with Tavis for that title.

• • •

Frank Brazil says he learned more in Tuesday's fight than in all other bouts before. In the future he will be more aggressive in the ring and train a little more before the gong.

FANS ANXIOUS TO SEE RITCHIE IN ACTION

In putting on Earl Ritchie and Charlie Olsen, of Kansas City, for the main event of his next show, Matchmaker Richmond of the Richmond Athletic Club and Impresario Floyd are making no mistake.

Local fans are anxious to see Ritchie in etin.

Olsen is a big fellw and is said to have an awful wallop in either hand.

That Ritchie will try every minute is certain.

He contemplates a trip east and his fight with big Olsen is the acid test. If he licks his man he will make that trip. If he doesn't he'll stay in Richmond awhile.

My Dear Doctor Chan:

I am more than pleased to be able per mon:, to endorse your effective method of herb healing. With a painful attack of acute muscular rheumatism, after having tried Swedish Massage and later the remedies of a well-known specialist, I came to you on the advice of Mr. Shoong, proprietor of the China Toggery, who stated that you were the best Chinese practitioner he knew.

With some apprehension as to your ability to accomplish what the others had severally failed in, I commenced taking your herb teas, with the result that in a few weeks I found not only that the rheumatism has been eliminted, but along with it indigestion and a long standing constipation which had threatened to become chronic. It will always be a pleasure to recommend you to my friends, as I have already done in many instances, feeling confident that in any case where you state you can cure, a cure will be accomplished through your remedies. Very truly yours, H. R. HURLBUT.
